Story: The Bermuda Triangle is by far credited as the biggest mystery of the world. The place is also known as the Devil's Triangle. It is a loosely defined region in the western part of the North Atlantic Ocean. A number of aircrafts and ships are said to have disappeared there under mysterious circumstances. Popular culture has attributed various disappearances to the paranormal or activity by extra-terrestrial beings. Documented evidence indicates that a significant percentage of the incidents were false or inaccurately reported. Later on, these stories were further embellished by mystery authors. In a 2013 study, the World Wide Fund for Nature identified the world's 10 most dangerous waters for shipping, but the Bermuda Triangle was not among them. According to the US Navy, the triangle does not exist. Neither the name is recognized by the US Board on Geographic names.
